Thinking Small Mar 27 2022 Sometimes achieving big things requires the ability to think small. This simple concept was the driving force that propelled the Volkswagen Beetle to become an avatar of American-style freedom, a household brand, and a global icon. The VW Bug inspired the ad men of Madison Avenue, beguiled Woodstock Nation, and has recently been re-imagined for the hipster generation. And

while today it is surely one of the most recognizable cars in the world, few of us know the compelling details of this car's story. In *Thinking Small*, journalist and cultural historian Andrea Hiott retraces the improbable journey of this little car that changed the world. Andrea Hiott's wide-ranging narrative stretches from the factory floors of Weimar Germany to the executive suites of today's automotive innovators, showing how a succession of artists and engineers shepherded the Beetle to market through periods of privation and war, reconstruction and recovery. Henry Ford's Model T may have revolutionized the American auto industry, but for years Europe remained a place where only the elite drove cars. That all changed with the advent of the Volkswagen, the product of a Nazi initiative to bring driving to the masses. But Hitler's concept of "the people's car" would soon take on new meaning. As Germany rebuilt from the rubble of World War II, a whole generation succumbed to the charms

of the world's most huggable automobile. Indeed, the story of the Volkswagen is a story about people, and Hiott introduces us to the men who believed in it, built it, and sold it: Ferdinand Porsche, the visionary Austrian automobile designer whose futuristic dream of an affordable family vehicle was fatally compromised by his patron Adolf Hitler's monomaniacal drive toward war; Heinrich Nordhoff, the forward-thinking German industrialist whose management innovations made mass production of the Beetle a reality; and Bill Bernbach, the Jewish American advertising executive whose team of Madison Avenue mavericks dreamed up the legendary ad campaign that transformed the quintessential German compact into an outsize worldwide phenomenon. *Thinking Small* is the remarkable story of an automobile and an idea. Hatched in an age of darkness, the Beetle emerged into the light of a new era as a symbol of individuality and personal mobility—a triumph not of the will but of the imagination.

Original VW Beetle Dec 12 2020 No automobile is more recognizable than the Volkswagen Beetle. Introduced as an affordable motor vehicle for postwar Germany, the little Beetle grew to iconic status in both the automotive world and the world of pop culture. This year-by-year, full-color tribute to the "People's Car" begins with the first models in 1945 and goes on to cover the Beetle's 33-year production run in Germany, it's continued manufacture in Mexico starting in 1978, and the introduction in Spring 1998 of the New Beetle -- a car that reasserted the model's popularity, posted remarkable sales and, like its forebear, transcended the automotive world to become a pop culture

The Story of the California Look VW Jul 07 2020 The California Look is the most popular style of Volkswagen customizing. The typical Cal Looker is stripped of chrome, lowered, has a high-quality paint job and hides a very hot engine. It all began in the late 1950s, when hot-rodders started tuning Beetles for the drag strip. Their successes gave birth to an automotive performance industry and their racecars' look soon spread street Beetles, becoming cooler, cleaner and more sophisticated. Keith Seume tells the story of how this phenomenon - completely unforeseen by the manufacturers of the humble VW - gathered pace in the 1960s, spread worldwide in the '70s, and now dominates the VW custom scene, with a look at past cars and race heroes, at the performance tuning industry, at the raceways, at the Cal Look of today, and at pointers to the Cal Look of tomorrow.

Prelude to a Groovy Road Trip Feb 11 2021
Sunny Key West sets the stage for writer/professor G. J. Dürschmidt to launch a bucket-list cross-country road trip in his 1970 Volkswagen bus. As only the magic of Key West could possibly make happen, the bus takes on the persona of Vinnie van Go, who decides to try his hand at poetry. "If the old man can write," says Vinnie, "then I sure as hell can too!" This book is a serendipitous collection of Key West-inspired thoughts and observations made through the eyes and poetry of a vintage VW love bus. It's all about love. It reveals the strong and special bond that has grown between man and machine. Both must face the reality of aging and its role as they prepare to hit the road. Come climb aboard. Laugh, cry, and be shocked together with them. Though mostly mild, Vinnie's poems can be somewhat naughty. Reader, beware!

campaign for the Volkswagen Beetle is considered the best of all time. More than just promoting a car, it promoted a new kind of advertising: simple, charming, intelligent and, most of all, honest. In "Ugly Is Only Skin-Deep," Dominik Imseng retraces the creation of Doyle Dane Bernbach, sneered at by the big players on Madison Avenue because of the "ethnic" background of its founders and employees, who were mostly Jewish. Readers will then learn how the agency won the Volkswagen account and how an unlikely creative team set the tone for the most admired campaign in advertising history. Finally, the book examines the evolution of the Volkswagen campaign and how it managed to convince more and more Americans that smaller was better. In fact, the Volkswagen campaign didn't only fundamentally change the ethos of advertising, it also helped trigger the cultural revolution of the 1960s.
