Contemporary African Art Sep 09 2020 A revised edition of this seminal title, surveying the diverse, ever-evolving field of contemporary African art from the 1950s to today, illustrated in color throughout.

Contemporary African art has grown out of the diverse histories and cultural heritage of the African continent and its diaspora. It is not characterized by one particular style, technique, or theme, but by a bricolage-like attitude toward art making, incorporating and building upon the structures from which older, pre-colonial and colonial genres were made. In this revised and updated edition of *Contemporary African Art*, Sidney Littlefield Kasfir examines the major themes, developments, and accomplishments in African art of the twentieth and twenty-first centuries. Organized thematically, the book includes new chapters on the history of African photography and the growth of the global art market, alongside significant discussions of patronage, mediation, artistic training, and national and diaspora identities. This completely revised and updated edition expands the scope of the typical bank management course by addressing all types of deposit-type financial institutions, and by explaining the why of intermediation rather than simply describing institutions, regulations, and market phenomena. This analytic approach strikes at the heart of financial intermediation by explaining why financial intermediaries exist and what they do. Specific regulations, economies, and policies will change, but the underlying philosophical foundations remain the same. This approach enables students to understand the foundational principles and to apply them to whatever context they encounter as professionals. This book is the perfect liaison between the microeconomics realm of information economics and the real world of banking and financial intermediation. This book is recommended for advanced undergraduates and MSc in Finance students with courses on commercial bank management, banking, money and banking, and financial intermediation. Literature for Young Adults Mar 28 2022 Young adults are actively looking for anything that connects them with the changes happening in their lives, and the books discussed throughout Literature for Young Adults have the potential to make that connection and motivate them to read. It explores a great variety of works, genres, and formats, but it places special emphasis on contemporary works whose nontraditional themes, protagonists, and literary conventions make them well suited to young adult readers. It also looks at the ways in which contemporary readers access and share the works they're reading, and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs. In addition to traditional genre chapters, Literature for Young Adults includes chapters on literary nonfiction; poetry, short stories, and drama; cover art, picture books, illustrated literature, and graphic novels; and film. It recognizes that, while films can be used to complement print literature, they are also a literacy format in their own right-and one that young adults are particularly familiar and comfortable with. The book's discussion of literary language--including traditional elements as well as metafictional terms--enables readers to share in a literary conversation with their students (and others) when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading.
