Dialogic Readers: Children talking and thinking together about visual texts celebrates the sophisticated and dynamic discussions that primary-aged children can have as they talk together to make meaning from a variety of texts, and it highlights the potential for talk between readers as a tool for critical and creative thinking. It proposes a new dialogic theory of reading comprehension that incorporates multi-modal media and adds further weight to the argument that talk as a tool for learning should form a central part of primary classroom learning and teaching. The book explores:

- the language of co-construction
- children’s critical and creative responses to text
- the dialogic transaction between text and readers
- the use of language as a tool for creating a social cohesion between

is aimed at educational lecturers, researchers and students who want to explore an expanded notion of reading comprehension in the twenty-first century, realizing how opportunities for children thinking creatively together might transform the potential for learning in the classroom. It provides a framework for analyzing co-constructive talk with suggestions for promoting children’s critical and creative thinking.

Based on the premise that the modern discourse of enlightenment and its self-critique began in the eighteenth century, *Impure Reason* provides a fresh look at the controversy through cultural, social, and political history, confronting the often abstract theories of a dialectics of enlightenment with concrete historical studies of the Age of Enlightenment. This volume brings together current research on the German Enlightenment in order to familiarize an American audience with the period that

Goethe-as well as to other important figures who are practically unknown outside of German studies. Leading scholars on eighteenth-century German society, politics, literature, and culture bring a uniquely American perspective to the project, with critiques that generally have not been voiced in Germany. Their essays, which represent a wide range of attitudes toward enlightenment, cover topics as varied as the debate on colonialism; the difficulties of diversity; the use and abuse of reading; male sexuality in enlightenment self-critique; medicine, patriarchy, and heterosexuality; art and social discipline; disturbed mourning and the Enlightenment's flight from the body; and women possessed by the devil. Modern critics and defenders of enlightenment who are discussed in the essays include Horkheimer and Adorno (who are themselves subjected to a genderbased critique), Jürgen Habermas, Jean-François Lyotard, Manfred Frank, Richard Rorty, and *Christiana*

### **The Beginnings of Social Understanding** Feb 23 2022

When does our acknowledgment of the social contract really begin? When do young children first display an understanding of their social world? When and why do they begin to grasp that other people have feelings and thoughts like their own, yet different? In this pathbreaking work Judy Dunn explores several aspects of the early process of social discovery: children's recognition of the feelings of others, their ability to interpret and anticipate the behavior and relationships of others, and their

prohibitions and accepted practices of their world. Dunn's work brings into focus an apparent paradox in our current view of the very young child's social understanding. Whereas research on infancy reveals that babies are born with a predisposition to learn about other people, and appear sensitive to the emotions and behavior of others, experimental studies suggest that children of three, four, and five years of age have difficulty gauging the feelings, intentions, and perceptions of others. Why should this social intelligence--which might be expected to be high on the developmental agenda--proceed so slowly? Is the social understanding of young children really so limited? Dunn pursues answers to these questions through close observation of children in their homes, in the complex social world of the family; her findings suggest a sophistication that has not yet been appreciated or documented. upon observations and analyses from three longitudinal studies of children during the transition from infancy to childhood, examining children's disputes, jokes, play, their questions and narratives about others. The book demonstrates children's increasing subtlety as members of a cultural world, and argues that emotional relationships and family discourse play crucial roles in the development of this understanding. Dunn breaks through traditional notions of child development as she sets forth a refreshingly original perspective from which to view the social potential of children.

of the world." Herself the child of immigrants, she established a night school, open to all faiths, to teach English to Russian Jews in her hometown. She became the first woman to study at the Jewish Theological Seminary, and was the first editor for the Jewish Publication Society. In 1912 she founded Hadassah, the international women's organization dedicated to humanitarian work and community building. A passionate Zionist, Szold was troubled by the Jewish-Arab conflict in Palestine, to which she sought a peaceful and equitable solution for all. Noted Israeli historian Dvora Hachohen captures the dramatic life of this remarkable woman. Long before anyone had heard of intersectionality, Szold maintained that her many political commitments were inseparable. She fought relentlessly for women's place in Judaism and for health and educational networks in Mandate Palestine. As a global citizen, she championed American pacifism.

*and the Ancient Near East* Jul 27 2019 Five Pentateuchal texts (Lev 24:10-23; Num 9:6-14; Num 15:32-36; Num 27:1-11; Num 36:1-12) offer unique visions of the elaboration of law in Israel's formative past. In response to individual legal cases, Yahweh enacts impersonal and general statutes reminiscent of biblical and ancient Near Eastern law collections. From the perspective of comparative law, Dylan R. Johnson proposes a new understanding of these texts as biblical rescripts: a legislative technique that enabled sovereigns to enact general laws on the basis of particular legal cases.

Typological parallels drawn from cuneiform and Roman law illustrate the complex ideology informing the content and the form of these five cases. The author explores how latent conceptions of law, justice, and legislative sovereignty shaped these texts, and how the Priestly vision of law interacted with and transformed earlier legal traditions.

*Novel* Nov 30 2019 Sophie Germain, the first and only woman in history to make a substantial contribution to the proof of Fermat's Last Theorem, grew up during the most turbulent years of the French Revolution. Her mathematical genius was discovered by Lagrange around 1797. Published research about Germain focuses on her achievements, noting that she assumed a man's name at the École Polytechnique in Paris, to submit her own work to Lagrange. Yet, no biography has explained how Germain learned mathematics before that time to become so sure of her analytical skills to carry out such a daring act. Sophie's Diary is an attempt to answer this question: How did Germain learn enough mathematics to enter the world of Lagrange's analysis in the first place? In Sophie's Diary, Germain comes to life through a fictionalized journal that intertwines mathematics with history of mathematics plus historically-accurate accounts of the brutal

Novalis, Signs of Revolution

Sep 08 2020 Novalis traces the meteoric career of one of the most striking—and most strikingly

misunderstood—figures of German Romanticism.

Although Friedrich von Hardenberg (better known by his pseudonym, Novalis) published scarcely eighty pages of writings in his lifetime, his considerable fame and influence continued to spread long after his death in 1801. His posthumous reputation, however, was largely based on the myth manufactured by opportunistic editors, as Wm. Arctander O'Brien reveals in this book, the first to extract Hardenberg from the distortions of history.

A member of the generation of Hegel,

Hölderlin, and Schelling, Hardenberg was an avid follower of the French Revolution, a semiotician avant la lettre, and a prescient critic of religion. Yet in 1802, only a year after his death, the writer who had scandalized the Prussian court was marketed to a nation at war as a reactionary patriot, a sweet versifier of Idealism, and a morbid mystic. Identifying the break between Hardenberg's own early Romanticism and the late Romanticism that falsified it, Novalis shows us a writer fully engaged in revolutionary politics and examines his semiotic readings of philosophy and of the political, scientific, and religious institutions of the day. Drawing on the full range of Novalis's writings, including his poetry, notebooks, novels, and journals, O'Brien situates his semiotics between those of the eighteenth century and those of the twentieth and demonstrates the manner in which a concern for signs and language permeated all aspects of his thought. The most

available in English, Novalis makes this revolutionary theoretician visible for the first time. Mining a crucial chapter in the history of semiotics and social theory, it suggests fruitful, sometimes problematic connections between semiotic, historical, "deconstructive," and philological practices as it presents a portrait of one of the most complex figures in literary history. Indispensable for scholars of German Romanticism, Novalis will also be of interest to students of comparative literature and European intellectual history.

2021 Part fairy tale, part crime novel, part rags to riches Hollywood myth, I Am Sophie Tucker tells the outrageous story of one of showbiz's biggest personalities. From 1906 through the beginning of television, Sophie Tucker and her bawdy, brash, and risqué songs paved the way for performers such as West, Monroe, Midler, Cher, Madonna, and Gaga. "Sophie was like the Forrest Gump of the first half of the 1900s," says co-author Susan Ecker. "She was close friends with seven presidents, King George VI, young Queen Elizabeth, Chaplin, J. Edgar, Capone, Garland, Jerry Lewis, Sinatra and every other notable of her era." Tucker tried to get her story published for nine years, without success. Undaunted, Sophie hired half a dozen ghostwriters, but she still had no takers for her no holds barred autobiography. Eventually, Doubleday published a sanitized version in 1945. "After immersing ourselves in Sophie's papers and surviving friends," says co-

author Lloyd Ecker, "this initial volume is what should have been the actual autobiography of Tucker." Though she obsessively documented her life, Sophie loved to exaggerate for dramatic effect. Over the years, she told multiple versions of each important event. At the end, not even Sophie knew the difference between truth and tall tale. "This volume is 85% fact," Lloyd explains. "The other 15% ...who knows?" I Am Sophie Tucker puts back all of the delicious bits nixed by Doubleday's lawyers and throws in other Tucker show business dirt, intrigue, arrests, romance, murder, gangsters, and scandals. Now you can read it for yourself.

2020 This book is about how toddlers learn their first adjectives, such as, for example, red, big and tasty. Adjectives denote properties and enter child vocabularies later than words for objects (such as apple and tree) and actions (such as eat and run), probably due to lower frequencies in parental speech and greater conceptual complexity. Adjective acquisition has received relatively little attention in child language research. Furthermore, cross-linguistic studies of adjective learning are virtually non-existent. This book represents the first systematic analysis of how children learning typologically different languages acquire adjective form, function and meaning. The cross-linguistic comparisons undertaken in the book provide valuable insights into universal and language-specific aspects of language acquisition. For each of the languages studied in this volume, the development of adjective semantics is studied in tandem with the *Online Library wolcottmaple.com on December 4, 2022 Read Pdf Free*

development of morphology by testing two hypotheses: (a) the acquisition trajectory in the domain of adjectival morphology is determined by the typological properties of the target language; (b) irrespective of the languages being acquired, adjective learning is facilitated by universal conceptual mechanisms such as comparison and contrast.

All of life's a wicked stage and love a dangerous drama... "A fascinating portrayal of London's theatrical milieu...Ware again proves she can intertwine fact and fiction to create an entertaining and harmonious whole." -Publishers Weekly  
If Shakespeare had a sister... In 18th century London the glamorous Drury Lane and Covent Garden theatres were all the rage, beckoning every young actor, actress, playwright, and performer with the lure of the stage lights. But competition and back-biting between theatre owners, patrons, actors, and writers left aspiring playwrights with their work stolen, profits withheld, and reputations on the line. For a female, things were harder

"petticoat playwright" getting past the government censor was slim. In this exciting and cutthroat world, a young woman with a skill for writing and an ambition to see her work performed could rise to glory, or could lose all in the blink of an eye... In Ciji Ware's signature style, real-life characters of the day create a backdrop for a portrait of a glittering era, a love story, and a compelling glimpse into what life was like for a strong and independent-minded woman in an emphatically man's world. "A historical novel so lively and intriguing, you don't realize you've learnt anything till after you close the book. Exciting, entertaining, and enlightening." -Literary Times
